

THE KLBC EPISODES #5 - SCIENCE

12 plays/downloads

This one's gonna be electric!

Okay, so I had to do more than a wee bit of chemistry to make it work but I am positive that 70 minutes after pressing play, you will find the sum of the parts to be to your liking.

Got free tickets to see Kathryn Dean at the LA House Of Blues to pass along, and if you are in a local (LA County) band looking to get some play, you will definitely want to charge right in.

Music from Under The Noise, Peter Gabriel, Laurie Anderson, Rush, The Cult, local heroes The Abe Lincoln Story, Fluke, a special guest appearance by Major Kong, and much, much more.

It's science you can dance to!
